# ABOUT THE PROGRAM

3

To minimize the risk and maximize the fun of motorcycling, the Registry of Motor Vehicles sponsors the Massachusetts Rider Education Program (MREP). The mission of this program is to reduce the number of motorcycle-related fatalities and injuries in the Commonwealth by increasing the statewide availability of Motorcycle Safety Foundation-approved (MSF) rider education courses.

The MREP provides training motorcycles, and/or promotional and technical assistance to a statewide network of training sites. This support enables these sites to keep their tuitions for rider education courses affordable. The instructors who teach these courses are MSF-certified with additional MREP approval.

The MREP is an effective highway safety program. Since its inception in 1990, the MREP has trained more than 25,000 students. During this same period, 1990 to 1999, motorcycle-related fatalities declined by 37% and injuries by 30%. These improvements in motorcycle safety in Massachusetts took place even as the number of registered motorcycles on the road during this period increased 54%.

To fund the MREP, the program receives \$2.00 of every annual motorcycle registration fee that the Registry of Motor Vehicles collects. The MREP also uses federal highway safety funds to help it train new instructors, to maintain the professionalism of its current instructors, and to conduct other motorcycle safety activities.

A limited number of loaner helmets are available for students without one.

This test may be taken without an appointment at any full-service Registry office. Next, pass one of the MREP's courses or the Registry's road test to earn your motorcycle license or endorsement. Check the Registry manual for further information, restrictions, and current fees or on our web site at [www.mass.gov/rmv](http://www.mass.gov/rmv).
